SECTION 20.0 ZONING VARIANCES

Section 20.01 Introduction

The Planning and Zoning Agency (PZA) or the Ponte Vedra Zoning and Adjustment Board (PVZAB) may grant zoning variances which are found not to be contrary to the public interest and owing to special conditions, a literal enforcement of the Land Development Code (LDC) or Ponte Vedra Zoning District Regulations (PVZDR) will result in unnecessary and undue hardship. The Agency may provide conditions and safeguards as may be appropriate and in harmony with the purpose and intent of the LDC or PVZDR as part of the Variance. A zoning variance shall be limited to those specific regulations relating to zoning, including but not limited to building or structure heights, setbacks, buffers, lot or yard requirements, lot coverage, required parking and any Special Use standard. A use variance is not allowed except as may be permitted by the Ponte Vedra Zoning District Regulations.

Zoning variance applications are submitted to and processed by the Planning and Zoning Section.

Section 20.02 Application Process

The following documents/information must be provided to process your Application.

A. Application
B. Proof of Ownership
C. Owners’ Authorization for Agent
D. Site plan of property showing all existing or proposed structures, easements, and any other features of the land that may affect the development of land, such as topography, natural landscape or geographical features.
E. General summary of request, with specific reasons how the literal enforcement of the Code will result in unnecessary and undue hardship as defined in Part 12.01, Land Development Code.
F. Legal Description of subject property

Note: Legal descriptions must be approved by the County before applications can be scheduled for hearings. Applicants who fail to respond to staff comments regarding
legal descriptions may have their projects delayed until the problem is corrected and staff signs off on these comments due to the following reasons:

Legal descriptions are required to be included with all adopted ordinances for land use amendments, rezonings, PUDs and Major Modifications to PUDs and with all approved concurrency certificates. Correct and accurate legal descriptions are critical for County staff to create accurate maps for public hearing ads and creation of all other project maps (location maps, road maps, aerials, Zoning maps and Future Land Use maps). Accurate legal descriptions are necessary for Staff to correctly analyze applications and develop staff recommendations. Correct and accurate legal descriptions are required for the County GIS Department to properly query all adjacent property owners within 300 feet of the parcel for notification of hearings. And finally, the Land Development Code and the Comprehensive Plan have different criteria for different sized parcels therefore accurate legal descriptions and identification of parcel size on applications is also critical (example: 5 acres, 10 acres, 17.5 acres, 39 acres, 40 acres, 50 acres, 100 acres).

G. For setback variances along State Roads i.e. Coastal Highway, contact FL Department of Transportation at (904) 825-5036 regarding the proposed reduction.
